ABOUT DGE&T And Skill India Mission

Skill India is an initiative of the Government of India which has been launched to empower the youth of the country with skill sets which make them more employable and more productive in their work environment. Our National Skill Mission is chaired by the Honble Prime Minister, Shri Narendra Modi him self.

India is a country today with 65% of its youth in the working age group. If ever there is away to reap this demographic advantage, it has to be through skill development of the youth so that they add not only to their personal growth, but to the country economic growth as well.

Skill India offers courses across 40 sectors in the country which are aligned to the standards recognised by both, the industry and the government under the National Skill Qualification Framework. The courses help a person focus on practical delivery of work and help him enhance his technical expertise so that he is ready for day one of his job and companies don't have to invest in to training him for his job profile.

The candidates are also linked to the MUDRA scheme of the government to get assistance in initial business funding. The Directorate General of Training (DGT) in Ministry of Skill Development and Entrepreneurship is the apex organization for development and coordination at National level for the programmes relating to vocational training including Women Vocational Training. Industrial Training Institutes are under the administrative and financial control of State Governments or Union Territory Administrations. DGT also operates Vocational Training Schemes in some of the specialized areas through field institutes under its direct control. Development of these programmes at national level, particularly in the area concerning common policies, Common standards and procedures,training of instructors and trade testing are the responsibility of the DGT

"Skills and knowledge are the driving forces of economic growth and social development of any country. What we do is closely aligned to our Vision and Key Objectives and to the Skill Mission of India."

"Enabling today's youth for a promising tomorrow"

About

DSDC
Delhi Skill Development Center
Assessment Centre Partner For DGE & T
Under MSDE Govt. of India

"Enabling today's youth for a promising tomorrow"

Even though the central and state Governments have made considerable effort to enhance the Skill of the Youth, there Continues to be a huge gap between the demand and supply of Skilled Workforce. This is magnified by the fact that with a population of over a billion people and majority in the average age of 25 years, nearly 300 million are underemployed or unemployed. On the other side industry is in acute shortage of skilled labor. This clearly highlights that most of our population is under skilled and therefore unemployable.

Delhi Skill Development Center (DSDC) has been established with a primary objective to enhance the skills of the youth of India to meet the growing demands of modern industrialization. DSDC is an Assessment Center partner for DGE & T Under MSDE (Ministry OF Skill Development and Entrepreneurship) Govt. Of India.
